GIRLS LIKE THESE

CANTINA

KELLY's career is going nowhere, and her love life balances between a comedy and a great Greek tragedy. Feeling in a rut, she decides to leave Los Angeles and move back home. But before she does, and since RAY is banned from Vegas for life, her girlfriends convince her to take a trip to Mexico for one last hurrah.

Along with crass, self-absorbed, devil-may-care, Ray, adventurous, commitment-phobe FAITH, bigger-than-life-midget-comedian STACY, competitive and prudish LAURA and sweet, reserved EVA, Kelly embarks on a trip of a lifetime.

Everything is going well until Ray plays and loses a poker game against a local drug lord and leaves Stacy as collateral until she can pay up her debt. But things go from bad to worse when the drug lord refuses to surrender Stacy and leaves town and neither the police nor the US embassy can help.

The girls must first learn to put aside their differences and step outside their comfort zone if they want to save their friend before returning home as heroes. And after working a stripper pole, eating shit, playing midget tossing, and enlisting the help of a good-looking business owner FRANK and shady local bar fly BILL, they may even learn a little something about themselves.

Kelly

She is smart, cute (in a girl-next-door kind of way), loyal, extremely talented, but just doesn't know it.

Kelly is the glue that holds the girls together so when she announces that she is moving back to her hometown, the girls will send her off in style!

"Try masturbating with 5 cats on your bed."

Ray is crass, crude, rude, loud, confident and quite frankly self-absorbed.

The "senior" of the group, she can out-drink and out-gross any men in a room and when she plays, she plays hard. But this time, she may have bitten off more than she can chew...

Confident, fun, adventurous, always up for a good time, and completely commitment-phobe Faith has been Kelly's best friend since Kelly moved to Los Angeles.

She does not live in the past and pretends not to care about the future, but maybe losing her best friend will change that.

Faith

Stacy

It's not every day that you meet bigger-than-life-midget-stand-up-comedian Stacy. And once you do, you will never forget her! She has the most positive outlook on life and is very comfortable in her own skin.

The only married member of the group, Stacy is probably the more sensible member as well. But don't poke the bear...

"HEL-LO!!! T-Rex arms!!"

Laura

"I've been told by several men I have the perfect body type."

Judgmental. competitive and prudish, Laura has a very high opinion of herself (or so you think).

Laura especially disapproves of Ray, who, after gambling, drinking, eating and masturbating, loves nothing more than to push Laura's buttons (and God knows there are many).

Eva

The baby of the group, Eva is sweet and kind of a people pleaser. A bit reserved, she spends most of her time reading gossips on her iPad.

Self conscious and a bit clueless, there is way more to Eva than the eyes can see if you actually listen.

Frank

H.O.T. — every girl's wet dream.
Frank had one minor role in
"Buffy the Vampire Slayer" way
back when and was smart enough
to invest his paychecks wisely. So
now, he shares his time between
LA and Mexico where he owns
and operates multiple businesses.

Mexico

It's not always white sand and blue waters, massage on the beach or parties in night clubs, sometimes it is shady strip clubs, depilated buildings and drug lords.

But it is always colorful, flavorful and fragrant with a background of tequila and spices
